Forest Stewardship Council
Chain of Custody

FSC® – Forest Stewardship Council™

The Forest Stewardship Council® (FSC) is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests.

Established in 1993 as a response to concerns over global deforestation, FSC is widely regarded as one of the most important initiatives of the last decade to promote responsible forest management worldwide.

FSC is a certification system that provides internationally recognized standard-setting, trademark assurance and accreditation services to companies, organizations, and communities interested in responsible forestry.

The FSC label provides a credible link between responsible production and consumption of forest products, enabling consumers and businesses to make purchasing decisions that benefit people and the environment as well as providing ongoing business value.

Chain of Custody certification is essential for businesses seeking to access environmentally and socially aware markets, or to demonstrate compliance with public and private procurement policies that specify environmentally responsible materials. These include the EU Ecolabel scheme for furniture, or the US Green Building Leadership in Energy and Environmental Design (LEED) rating system.*

Acoustigreen is FSC Certified and can provide many of our wood products from certified wood.
